

Tagtough Starter Kit

Data Sheet

Includes:

- 1 x baton
- 1 x pouch
- 1 x upload station
- 1 x USB cable
- 10 x ID points with holders
- 2 x ID key tags

Maintain full coverage of your site with a visual guard profile. Guards patrol using the Tagtough patrol baton and clocking points along the route. This information is stored on the baton to be downloaded at your convenience.

The Tagtough baton is intrinsically safe certified with a very high protection rate all the way to zone zero (0), and manufactured to IP 69K standard making it not only safe, but tough and waterproof. The unit is hermetically sealed.

Simple guard monitoring. The Tagtough system helps you control and monitor your security, safety and maintenance routines, ensuring maximum protection of your assets but maintaining full coverage of your site with a visual guard profile.
